

690/440VAC Motor Control Centres

Originally built in 2011 by ABB and intended for Offshore installation for the Talisman 'Auk' project. The project was cancelled and the MCCs dry stored since.

The MCCs are partially dressed and come with component parts to complete.

Any inspection welcome. MCCs are located in Aberdeen. Original GA drawings, additional photos and information available on request. Offers invited

Motor Control Centre EN002

Pillars 1 & 2

HOS

690/440VAC Motor Control Centres
